John,
Thanks for the update. I've been working on updating the PRGs. The spreadsheets are mostly done and I'm hoping to have them and the writeup ready for peer review by the end of the month. I'm still working on figuring out who will do the peer review.

Janette:

I was out on Friday.

I am meeting with Jeff, Mark, and David Blount tomorrow afternoon to go over budgets, cost estimates, and scheduling. I will then discuss timing with Charles and Will as they have been working long weeks recently but should be coming available in the near future. I will get back to you with a schedule by Wednesday.

Please let me know if you have any questions.

- John

Hi John. I'm following up to make sure you received this email. Could you give me an idea of when you will be submitting the report to EPA?

Thanks,
Janette

John,
I'm glad to hear the good news about the AQTESOLV software installation. As you and I talked about recently, EPA wants to review the pilot study report sooner rather than waiting for it as part of the CMS report later. It still would be an appendix in the CMS report, and it shouldn't be additional work for Wood, you'll just be submitting it sooner. We want to know the final results before we move into the CMS since we're expecting the CO2 injection to be part of the remedy.

Regards,
Janette

Janette:

Attached is the PDF of the September 2019 Monthly Progress Report for the Container Properties/Formal Rhone-Poulenc site. Hard copies are being delivered to EPA and mailed later this afternoon.

Please let me know if you have any questions.

- John
